## CHRIS CAIN

---

Equal parts magician and musician, **Chris Cain** pulls rabbits from deep within his musical top hat. At any given moment he will masterfully reincarnate legendary licks from the blues masters like as an homage to their importance, all while making it appear as simple as a effortless stroll down memory lane. That's when a live **Chris Cain** performance transitions into an almost nether-world blues seance. But most of all what defines a musical evening with **Chris Cain** is one very important word: FUN!
