

"Prepare to be blown away! The House Jacks have more potential than Boyz II Men and the Backstreet Boys combined. This is some of the best music around, period!"

-- Songwriter's Monthly

"A battery of sounds that make mincemeat of the traditional limits of the human voice... a bonafide rock band ..."

-- Oakland Tribune

# The House Jacks

## The House Jacks

The House Jacks have riveted hundreds of thousands of people nationwide with their "a cappella in your face" sound -- a wicked combination of funk and pop with tight harmonies, fat vocal bass and mind-blowing vocal percussion. Using nothing more than their five mouths (and microphones), they deliver everything from mile-a-minute funk to screaming rock to aching-heart ballads. The House Jacks have headlined in many famous venues around the country, including The Bottom Line and The Bitter End (NYC), The Great American Music Hall (SF), The House Of Blues (Boston), The Birchmere (Alexandria, VA), and The Iron Horse (Northampton, MA). In addition, they have begun to make waves in Europe, headlining at many well-known German venues, including: Spectaculum Mundi (Munich), Theater am Aegi (Hannover), and Cafe Schlotte (Berlin). The House Jacks have appeared with James Brown, Ray Charles, Jon Secada, LL Cool J, the Neville Brothers, President Bill Clinton, Crosby Stills and Nash, the Pointer Sisters, the Temptations, The Gap Band, Tower of Power, Starship, Run-DMC, and many others.
