

MOTOR CITY ANGELS

Motor City Angels

The Motor City Angels are a conglomeration of Hawaii's finest musicians, singers and dancers molded into a high-energy dance show, seasoned with national and international experience. The Motor City Angels are an extravaganza of high energy, finger snappin', rock and soul music widely considered the hottest Corporate and Special Event music group available in Hawaii! Since opening at Magic Mountain in Los Angeles in 1986, the Motor City Angels have provided outstanding entertainment from the East Coast to the Caribbean and Canada and throughout the Pacific. Available in a variety of sizes to fit your budget, this band always delivers a hot horn section, great male and female singers and a kickin' rhythm section. This act is not a pickup band. The same well-rehearsed team of performers are used night after night. Affordable customized packages can include dancers, special effect lighting, travel and full production with top level audio engineer and lighting director. There is only one act in Hawaii with enough power and individuality to stand strong on their own and share the stage and playbill opening for Spinners, Lionel Ritchie, Gladys Knight, Tower of Power, Thelma Houston, Sheena Easton, The Four Tops and others; that act is the one and only Motor City Angels.
