## Urban Jazz Ensemble

This funky versatile and award winning ensemble has been a longtime SF favorite among supper clubs, society parties and nightclubs alike. The band molds the funky sounds of the 70's with a soulful mixture of pop, jazz, R&B, and dance classic to deliver a powerful mix of entertaining music. If you like Prince, Michael Jackson, Aretha Franklin, Sinatra or Miles Davis... then you have come to the doorsteps of one of the top acts within the bay area. While voted "best jazz band" by SF weekly in 1996 and featuring two songs in the highly acclaimed film "Some Prefer Cake," the band and it's players have shared the stage with Grammy Award winning producer Narada Michael Walden, Bob Weir of the Grateful Dead, Pete Escovedo, Tower of power, Merle Saunders, Charlie Hunter, Boz Scaggs, Earth Wind and Fire just to name a few. Band leader, producer and drummer Volonté Williams hand picked the finest musicians San Francisco has to offer. Each week their performance at Le Colonial excites and soothes the crowd of exotic cocktail sipping patrons into a blissful nirvana.
